I am writing to urge the FCC to reject the NAB's petition 04-160 and to support XM satellite radio. I enjoy the ability and the opportunity to select the type of programming I so choose. XM radio provides excellent variety and quality that is most certainly not offered otherwise. Since I choose to obtain a subscription to this service, it should not be up to the National Association of Broadcasters to dictate what I can and cannot hear.

In addition, in light of all the horrific weather that we have had across the country this past week, XM satellite provides an invaluable service in providing weather and traffic conditions to listeners. What a terrible and selfish disservice the National Association of Broadcasters is trying to accomplish. I know when I am traveling, I tune in!

Please reject NAB's petition 04-160.

Respectfully,
M. Stephens
